SPALDING'S

ATHLETIC LIBRARY

Spalding's Athletic Library is the leading library series of its kind published in the world; in fact, it has no imitators, let alone equals. It occupies a field that it has created for itself.

The Library was established in the year 1892, and it is conceded by all authorities that Spalding's Athletic Library has been an important factor in the advancement of amateur sport in America.

The millions that read the Library during the year will attest to its value. A glance at its index will disclose the remarkable field that it covers. It is immaterial what the pastime may be, you will find in Spalding's Athletic Library a reference to it, either in a book devoted exclusively to that particular game or in some of the books that cover many sports.

It has been the aim of the editors to make the books *Official*, and they *are* recognized as such, all the important governing bodies in America granting to the publishers of Spalding's Athletic Library the exclusive right to publish their official books and official rules.

The best authorities in each particular line of sport or physical culture, the men best qualified to write intelligently on their respective subjects, are selected to edit the books and, as a result, there is not another series in the world that is as authoritative as Spalding's Athletic Library.

No matter what new game or form of sport be conceived or advanced, it is invariably the aim of the publishers to have a book on that sport. In that way Spalding's Athletic Library is in the field at the beginning of the sport, follows it year in and year out, and there can be no doubt whatever that the present popularity of athletic sports can attribute the same to the "backing" it has received from Spalding's Athletic Library.

OTHER FOREIGN RECORDS.

100 meters—10 24-100s. (electrical timing), Minoru Fujii, Imperial University of Tokyo, Japan, Nov. 14, 1902. Pole vault—3.66 meters (12ft. .094in.), Minoru Fujii, Imperial University of Tokyo, Japan, Nov. 11, 1905. Affidavits as to the genuineness of these records furnished by Dr. A. Tanakadate, Professor of Physics, Tokyo University, and Arata Hamao, president of the Athletic Association. Electrical timing is briefly as follows: An electric chronograph is run with two break circuit keys in it, one at the starting point and the other at the finish line. The key at the start is attached to the starter's pistol and is operated automatically by the blow of the gas at the nozzle of the pistol, so that the nearest possible instant of the emission of the signal sound is recorded on the chronograph. At the finish line another key is tied to a fine tape across the course and which breaks when the runner strikes it. The interval between the two breaks is taken as the time in which the runner covers the course. The chronograph registers the hundredth of a second.

Throwing the discus, Greek style—115ft. 4in. (35.17 meters), Jaervinen, Finland, at Olympic Games, Athens, Greece, May 1, 1906.

Throwing the javelin—175ft. 6in. (53.49 meters), Lemming, Sweden, at Olympic Games, Athens, Greece, April 26, 1906.

PROGRAMME.

The Stadium will be capable of holding about 70,000 spectators, and will contain dressing-rooms, lavatories, and other accommodation for competitors in the Games.

The center will be an arena of turf of oval shape, having a long axis of 700 feet and a short axis of 300 feet. Round this arena will be built two tracks, the inner for running and the outer for cycling. Running alongside the arena will be a huge swimming-bath, with a deep space in the middle for high diving and water polo.

Length of turf, 235 yards (215.412 meters).

Length of turf (exclusive of lawn tennis courts), 136 yards 9 inches (124.584 meters).

Width of turf, 99 yards 1 foot (90.797 meters).

Width of turf (exclusive of swimming pond), 82 yards 2 feet (75.528 meters).

Running track, 3 laps to 1 mile, 24 feet wide (7.315 meters). 1 lap = 586 yards 2 feet (536.375 meters).

Cycling track, 2 3-4 laps to 1 mile, 35 feet wide (10.602 meters). 1 lap = 640 yards (585.199 meters).

Swimming pond: length, 100 meters (109.363 yards). Width, 50 feet (15.172 meters). Depth at each end, 4 feet (1.188 meters). Depth in middle, 12 feet (3.658 meters).

The numbers at the end of lines indicate the maximum number of competitors allowed from each country.

WHAT AN ATHLETE NEEDS.

A. G. Spalding & Bros. for over thirty years have been makers of athletic apparel, and make the most suitable goods for athletic contests. And so well is this fact recognized by the champion athletes that few of them wear anything but Spalding uniforms. Nearly all the important teams that have won honors in international competitions in recent years have had their uniforms furnished by A. G. Spalding & Bros. This was noticeable with the last American team which scored such a glorious victory in the Olympic games at Athens in 1906.

A sprinter should have two pairs of running shoes, one a very heavy pair for practicing in (the cross-country shoe, No. 14C, makes a very good shoe for this purpose, and can be had with or without spikes on heels), and a light pair for racing. One of the best professional sprinters that ever wore a shoe made it a point to train for all his races in very heavy sprinting shoes. Aside from the benefit that is claimed for practicing in heavy shoes, you always feel as though you have a pair of shoes that will be ready for any race that is scheduled, and bear in mind it does not pay to buy athletic implements or clothing that are cheap. They don't wear and cannot give you the service that you will get from articles that are official and made by a reputable house.

Spalding supplies special custom made athletic shoes, made according to your own measurements, at \$1 extra over their regular price for stock shoes. For these made-to-order shoes they set aside special lasts, and keep on file your own measurements, so that duplicate pairs of shoes may be ordered at any time after the first order is placed, simply by giving your name and address. Write to any Spalding store, a list of which is given on inside front cover of this book, for measurement blank, which gives full directions for taking your own measurements.

They also furnish special made-to-order athletic shoes for base ball and foot ball players, the extra charge in each case for this special service being \$1 per pair over their price for regular stock shoes.

It is very important that the beginner in athletics should know what to wear for the different sports. The cross-country runner requires a shoe with a low, broad heel, and spikes in sole of shoe; he can have spikes in the heel or not, just as it suits him. A pair of Spalding No. 14C shoes, which are made of the finest kangaroo leather, and used by all the prominent cross-country runners, cost \$6; when made to order, \$7 per pair. A sprinter will require a pair of sprinting shoes, No. 2-0, that sell for \$6, and \$7 when made to order. The No. 10, well made, of the finest lightweight calfskin, cost \$5 per pair, and \$6 when made to order. The sweater, No. A, of finest Australian lamb's wool, was made originally by special order for the Yale foot ball team, is now used by all college athletes, is one of the best in the market, and sells for \$6; athletic shirt, No. 600, \$1.50; running pants, No. 3, at 75 cents; a supporter is very essential for an athlete, and nearly all the champions use them; No. 5 is the most suitable one, and retails at 75 cents; a pair of corks will cost the athlete 15 cents; pushers for the running shoes, 25 cents.

The second quality of the same line of goods can be bought as follows: Sprinting shoes, No. 10, \$5 (\$6 when made to order); sweater, No. B, \$5; shirt, No. 6E, 50 cents; pants, No. 4, 50 cents; supporter, No. 2, 50 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents.

The pole-vaulter will want the same outfit, with the exception of a pair of jumping shoes, No. 14H, which sell for \$6, and a pair of wrist supporters, No. 200, which can be bought for 40 cents. The best pole on the market for athletic purposes is the 16-foot Spalding pole. This pole is made of hollow spruce, thus being much lighter, and, owing to a special preparation with which it is filled, the strength and stiffness is greatly increased. It retails for \$10; a 14-foot pole, hollow, retails for \$9.50, and the solid for \$6. Usually the vaulter will wrap the pole to suit his own taste.

The high jumper and the broad jumper will want an outfit as follows: Jumping shoes, No. 14H, \$6; sweater, No. A, \$6; shirt, No. 600, \$1.50;

pants, No. 3, 75 cents; supporter, No. 5, 75 cents; corks, No. 1 15 cents; pushers, No. 5, 25 cents.

An outfit with several of the articles of a cheaper grade than the above costs: Jumping shoes, No. 1411, \$6; sweater, No. B, \$5; shirt, No. 6E, 50 cents; pants, No. 4, 50 cents; supporter, No. 2, 50 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents.

The man who throws the weights will require the same wearing apparel as the pole-vaulter or the runner. John Flanagan and James Mitchell, two of the greatest weight throwers in the world, wear what is known as the No. 1411 shoe, with a short spike, which sells for \$6, and \$7 when made to order. It is very essential that the weight-thrower should have his own implements; in fact, nearly all the champion weight-throwers carry their own weights with them and guard them jealously.

Spalding athletic implements are made in exact accordance with the rules of the Amateur Athletic Union, and have been recognized as official, and no athlete who tries for a record would think of using any other make, as he knows that Spalding's are invariably correct, and he can compete with the assurance that if he wins there will be no question of the illegality of the record, as sometimes happens when athletes use implements that do not comply with the official requirements.

For the hammer-thrower, the best hammer is the Spalding Championship Hammer, with ball-bearing swivel. This hammer was designed by ex-Champion John Flanagan. The benefits of the ball-bearing construction will be appreciated by all hammer-throwers. It is guaranteed absolutely correct in weight. The price of the No. 06 Spalding Championship Ball-Bearing Hammer, complete with sole-leather case, is \$7.50 for the 16-lb., and the same price for the 12-lb. If bought without the leather case, the price is \$5.50 for either the 16-lb. or 12-lb. In the ordinary style hammer, with wire handle, but not ball-bearing, the No. 9, Practice, made of lead, 12-lb., costs \$4.50, and the No. 10, Regulation, 16-lb. lead, \$5. In iron hammers the No. 12, Juvenile, 8-lb., costs \$2.50; the No. 14, Practice, \$3.50, and the No. 15, Regulation, 16-lb., \$3.75. Wire handles for any of the foregoing hammers, with the exception of the Championship, cost 75 cents each. Handles for the Championship hammer are not supplied separately, but have to be put in at the Spalding factory at an extra charge.

It is advisable for a weight-thrower who wants to become expert to carry his own weights, and particularly his own hammer. He can then arrange to have the grip made to suit himself, and when necessary, to cover it with leather, and he will not be called upon when he goes to a competition to take the ordinary hammer with a handle with which he is not familiar.

The Spalding 56-lb. weight is made after designs submitted by Champion James S. Mitchell, the winner of innumerable contests both in America and Europe. It has been endorsed by all the leading weight-throwers, and is guaranteed correct in weight and in exact accordance with the rules of the Amateur Athletic Union. The 56-lb. weight is made in lead only, and costs, complete, \$12.

For shot putters the Spalding make is guaranteed correct in weight. Two styles of metal are used—lead and iron. In lead, the 16-lb. shot, No. 19, costs \$3.50, and the 12-lb., No. 21, \$3. In iron, the 16-lb., No. 23, costs \$1.75; the 12-lb., No. 25, \$1.50; and the 8-lb., No. 18, \$1.25. The latter weight is made in iron only. For indoor use Spalding supplies shot with a leather cover, which prevents the shot from losing weight, even when used constantly. The prices on the leather-covered shot are as follows: 16-lb., No. 4, \$7.50; 12-lb., No. 3, \$7; and the 8-lb., No. 26, \$5. For indoor use, however, the best shot is Spalding's patented rubber-covered indoor shot, which is made according to scientific principles, with a rubber cover that is perfectly round, giving a fine grip and having the proper resiliency when it comes in contact with the floor. It will wear longer than the ordinary leather-covered, and in addition there is no possibility that the lead dust will sift out, therefore it is always full weight. It has been thoroughly tested in the gymnasium of one of the greatest colleges in the country, and pronounced perfect by all who have had an opportunity to use it. The prices are: 16-lb., No. P, \$10; 12-lb., No. Q, \$9.

Since the revival of discus-throwing at the Olympic games at Athens in 1896, and which, by the way, was won by an American, Robert Garrett, of

Princeton, the Spalding discus has been recognized as the official discus, and is used exclusively by Martin Sheridan, the hero of the Olympic games of 1906 at Athens, whose winnings contributed materially to the securing by the American team of the greatest number of points in the athletic events. The price of the discus is \$5. For the use of more youthful athletes, however, a discus similar to the official discus is made, with the exception that it is lighter in weight. This Spalding Youths' Discus, as it is called, has been endorsed by the Public Schools Athletic League, and costs \$4.

For the pole-vaulter, the greatest care is exercised in making Spalding poles, only the most perfect and thoroughly seasoned pieces of spruce being used, making them the only poles that are really fit and safe for an athlete. The prices are as follows: No. 104, 16 feet long, each, \$7; No. 103, 14 feet long, \$6; No. 102, 12 feet long, \$5; No. 101, 10 feet long, \$4; No. 100, 8 feet long, \$3.

Spalding hollow spruce poles are considerably lighter than the solid poles, and the interior is filled with a special preparation which greatly increases the strength and stiffness. The prices are: No. 204, 16 feet long, each, \$10; No. 203, 14 feet long, \$9.50; No. 202, 12 feet long, \$9; No. 201, 10 feet long, \$8.50; No. 200, 8 feet long, \$8.

In getting up the line of vaulting standards extreme care is taken to have the Spalding standards made carefully and well. There is nothing flimsy about them, and the measurements are clearly and correctly marked, so as to avoid any misunderstanding or dispute. The best is No. 109, wooden uprights, graduated in half inches, adjustable to 13 feet, complete, \$15; No. 111, wooden uprights, inch graduations, 7 feet high, \$9.00. Hickory crossbars, when purchased separately, cost \$3 per dozen.

There is one article that a contestant in a pole-vaulting event must have, and that is his own pole. There is a great deal in getting used to a pole and having confidence in the one that is yours, because no other contestant is allowed to use it, according to the rules, which is quite right, for it is a mistake for a pole-vaulter to allow another to use his pole, especially if the other man is heavier than the owner. Anyone can readily understand that a man who weighs 160 pounds cannot use a pole designed for a man weighing 115 pounds.

At the Buffalo Exposition and at the Olympic games in St. Louis the Foster Patent Safety Hurdle, manufactured by Spalding, was used exclusively. This style can be used for either high or low hurdles. The frame is 2 feet 6 inches high, with a horizontal rod passing through it 2 feet above the ground. The hurdle is a wooden gate, 2 feet high, swinging on this rod at a point 6 inches from one of the sides and 18 inches from the other. With the short side up it measures 2 feet 6 inches from the ground, and with the long side up, 3 feet 6 inches. The hurdle can be changed from one height to the other in a few seconds, and is held firmly in either position by a thumb-screw on the rod. The price of the Foster Safety Hurdle is \$3.50 each, and when purchased in sets of 40 hurdles, \$100 per set.

In sprint races, wherever possible, each contestant should have his own lane. A complete set of Spalding lanes, with sufficient cord and stakes to lay out a 100-yards course, can be bought for \$15. The stakes are very strong and made with pointed ends, and can be driven into very hard ground.

In laying out or rearranging grounds great care should be taken to see that the field sports can go on without interference, and in the management of a large meeting it is very essential that more than one field sport should go on at more than one time. Therefore it should be arranged to have the running broad jump, running high-jump and the circles for weight-throwing separated. In order to have your plant as perfect as possible it is necessary to have all the apparatus that is necessary, not only to conduct an athletic meet, but to give the different athletes an opportunity to practice the various sports.

Great care should be taken in the arrangement of the broad jump. The toe-board is a very important article, and is generally overlooked, and the runway requires as much attention as the track. At the average athletic grounds the jumping path is usually neglected. A regulation take-off board

can be obtained from Spalding for \$3, and a toe-board or stop-board for \$3.50.

For the starter at an athletic meet Spalding has a very satisfactory and correct style of starter's pistol in a 32-caliber pistol, with 2-inch barrel and patent ejecting device, for \$6.00. Another necessary article is a whistle for announcing that everything is ready for a start and also for attracting the attention of the officials. Spalding has two very good styles of whistles, either of which costs 25 cents each. It is well also to have several measuring tapes to measure broad jumps, shot puts, hammer and weight throwing. There are a great many different styles of measuring tapes made, some plain, others in cases, but for general all-around use, as a really reliable measure, the special tapes which Spalding has made up are beyond any of the others. These steel tapes are furnished on patent electric reel, which allows the entire tape open to dry, and can be reeled and unreel as easily as tapes in cases. It is especially adapted to lay off courses and long measurements, and accuracy is guaranteed. This style tape is furnished in two different lengths. No. 1B, 100 feet long, graduated every foot, and each end foot in inches, costs \$5 each. No. 11B, 200 feet long, graduated every foot, and each end foot in inches, costs \$7.50. The captain of the club should provide himself with several balls of yarn for the finish.

Spalding's illustrated catalogue of all athletic sports should be in the hands of every athlete. It will be mailed free on request by addressing the nearest Spalding store, a list of which will be found on front inside cover of this book.

"We are just out of the Spalding article asked for, but here is something 'Just as good' at 25 per cent. less price."

Spalding Cautions the Consumer

to make proper allowances for these "JUST AS GOOD" manufacturers and substitute-dealers' statements, but see to it that the Spalding Trade-Mark is on, or attached, to each Spalding Athletic article, for without this Trade-Mark they are not genuine Spalding Goods.

We are prompted to issue this Caution to users of Spalding's Athletic Goods, for the reason that many defective articles made and sold by these "Just as Good" manufacturers and dealers are returned to us as defective and unsatisfactory, and which the consumer, who has been thus deceived, has asked us to repair or replace under our broad Guarantee, which reads as follows:

We Guarantee to each purchaser of an article bearing the Spalding Trade-Mark that such article will give satisfaction and a reasonable amount of service, when used for the purpose for which it was intended and under ordinary conditions and fair treatment.

We Agree to repair or replace free of charge any such article which proves defective in material or workmanship; PROVIDED such defective article is returned to us, transportation prepaid, during the season in which it was purchased, accompanied by the name, address and a letter from the user explaining the claim.

A.C. Spalding & Bros.

Beware of the "Just as Good" manufacturer, who makes "appearance," first and "Quality" secondary, in order to deceive the dealer; and beware of the substitute-dealer, who completes the fraud by offering the consumer the "Just as Good" article when Spalding's Goods are asked for.

SPALDING OLYMPIC DISCUS

SINCE the introduction of Discus Throwing, which was revived at the Olympic Games, at Athens, in 1896, and which was one of the principal features at the recent games held there, the Spalding Discus has been recognized as the Official Discus, and is used in all competitions because it conforms exactly to the Official rules in every respect. Packed in sealed box, and guaranteed absolutely correct.

PRICE, \$5.00

SPALDING YOUTHS' DISCUS

Officially adopted by the Public Schools Athletic League

TO satisfy the demand for a Discus that will be suitable for the use of the more youthful athletes, we have put out this season a special Discus, smaller in size and lighter in weight than the regular Official size. The Youths' Discus is made in accordance with official specifications.

PRICE, \$4.00

Foster's Patent Safety Hurdle

The frame is 2 feet 6 inches high, with a horizontal rod passing through it 2 feet above the ground. The hurdle is a wooden gate 2 feet high swinging on this rod at a point 6 inches from one of the sides and 18 inches from the other. With the short side up it measures 2 feet 6 inches from the ground, and with the long side up, 3 feet 6 inches. The hurdle can be changed from one height to the other in a few seconds, and is held firmly in either position by a thumb-screw on the rod.

From the "SPORTING LIFE"
of 20th September, 1906

Tom Hayward in a New Role

A rumour is in circulation that that prince among professional batsmen, Tom Hayward, is about to retire from first class cricket. It is almost needless to state that this is not so. What probably gave rise to the rumour is the announcement that Messrs. A. G. Spalding & Bros., 53-55, Fetter Lane, E. C., with much business acumen and enterprise, have engaged the Surrey "idol" as manager of their cricket bat department. Messrs. Spalding will make a special feature of this department, and all the bats in stock will be carefully selected and bear the name of Tom Hayward. Surrey cricketers especially will be pleased to learn that rumour has again proved herself a lying jade, for the "record breaker" of 1906 emphatically states that his engagement with Messrs. Spalding will in no way affect his cricketing career.

We issue a special catalogue devoted to our line of cricket goods, including the celebrated Tom Hayward "**Century**" Bat and the most complete assortment of general cricket equipment listed by anyone. ✽ A copy of this cricket catalogue will be mailed to anyone on receipt of request. ✽ Correspondence with organized clubs especially solicited.

The above picture shows the team of German Turners that came to America especially to compete in the International Championships at St. Louis on July 1 and 2, 1904, requesting that they be permitted to use the apparatus of the Spalding gymnasium exhibit in the gymnastic tournament, and at the conclusion of the two-day meeting voluntarily forwarded to A. G. Spalding & Bros. a testimonial highly complimenting the firm on their gymnastic apparatus. The same request was made by the Young Men's Christian Association of America, and the apparatus was used by them for the championships with best results. In the International A. A. U. Championships, A. G. Spalding & Bros.' apparatus was likewise used, and the chairman of the committee declared the apparatus to be the best ever used in connection with a championship meeting.

A photograph from one end of the gymnasium showing considerable of the apparatus in place on the floor. The net in the centre of the room is for volley ball games. Owing to the character of the apparatus the floor may be quickly cleared for games of this character at short notice.

THE FINEST EQUIPPED GYMNASIUM IN THE WORLD

The progress made in the manufacture and the mechanical perfection of the various gymnastic appliances shown in the complete gymnasium installed by A. G. Spalding & Bros. at the World's Fair, demonstrated that the firm is alive to the imperative need of the times. Physical training is being rapidly advanced and in the congested sections of the country it is a growing problem how to provide for the new conditions. This is particularly true in public school work and similar institutions. Real estate in large cities is extremely valuable, and as a consequence, gymnasiums are often reduced in size and wholly inadequate to the growing needs. This means that the apparatus of the past of a fixed or cumbersome character must be superseded by appliances that may be rapidly and conveniently handled in a manner to accommodate the constantly increasing number of boys and girls needing systematic physical development.

A. G. Spalding & Bros., who outfitted the complete gymnasium at the World's Fair and received the Grand Prize and Gold Medal in competition for their exhibit, are to be congratulated on their enterprise.

Official National League Ball

Is the Standard of the World

It is the Original League Ball

It is the Official League Ball

It is the Universally Adopted League Ball

It is the Best League Ball

IT HAS BEEN FORMALLY ADOPTED AS THE

Official Ball of the National League for over 30 Years

It has also been adopted as the Official Ball for all Championship Games
by the following Professional Leagues:

EASTERN LEAGUE for 20 years

NEW ENGLAND LEAGUE for 20 years

NORTHERN LEAGUE for 5 years

WESTERN ASSOCIATION for 11 years

PACIFIC COAST LEAGUE for 5 years

INTER-STATE LEAGUE for 9 years

NEW YORK STATE LEAGUE for 11 years

CENTRAL LEAGUE for 5 years

COTTON STATES LEAGUE for 5 years

INDIANA, ILLINOIS and IOWA

LEAGUE for 7 years

and by 22 other Professional Leagues that have adopted the Spalding
Official National League Ball from 1 to 4 years.

THE Spalding Official National League Ball was first adopted by the National League in 1878, and is the only ball that has been used in Championship League Games since that time. In the recent great World's Championship Games in Chicago between the Chicago Nationals and the Detroit Americans the Spalding Official National League Ball was used.

IN addition to the different American adoptions, the Spalding Official National League Ball has been made the official ball by the governing Base Ball Associations of Mexico, Cuba, Canada, Australia, South Africa, Great Britain, Philippine Islands, Japan, and, in fact, wherever Base Ball is played. The Spalding Official National League Ball has received this universal adoption because of its well established reputation for uniformity and high quality, but the special object of such adoptions, from the players' standpoint, is to secure absolute uniformity in a ball, that will prevent unfair "jockeying" with an unknown ball, and make National and International Base Ball contests possible, and at the same time make the records of players of value, and uniform throughout the world, which can only be secured by standardizing one well known ball.

The Spalding Official National League Ball

is used by Yale, Harvard, Princeton and all prominent college teams. The soldiers and sailors in the United States Army and Navy use it exclusively. In fact, the Spalding League Ball is in universal use wherever Base Ball is played.

Once in a while a minor league will experiment for a short time with some other ball, but invariably returns to the Spalding Official National League Ball, which has now become universally recognized

Players' Autograph Bats

Chance Model Cobb Model Brannan Model Stone Model Huggins Model Keeler Model

FOR THE PAST THIRTY YEARS or since our Base Ball Bat Factory was established, we have turned out special model bats to suit the leading players of the prominent professional leagues, and our records will show hundreds of different bats made in accordance with the ideas of the individual player, many of whom have been league record-makers.

The models that have been adopted have been duplicated by us from time to time as they have required additional bats, and in hundreds of cases we have been requested to furnish to other players duplicate bats that have been made for and used by well-known players.

In order to satisfy the ever-increasing demand from our customers for bats of the same models as used by leading players, we have obtained permission from many of the leading batters of the country to include in our line of high-grade bats these "Players' Autograph" bats, bearing their signature.

Space will not permit us to include a description of all the various models, but the following models have been selected as examples of what we are producing in this special "Players' Autograph" Bat Department:

<i>Frank L. Chance</i> Autograph Model	This is a very large Bat with a fairly thick handle. Bats supplied will not weigh less than 45 nor over 48 ounces.
<i>Gyrene R. Cobb</i> Autograph Model	This is also a large Bat, almost the same length as the Chance Model, but with much less wood, especially in the handle part of the Bat. Bats supplied will not weigh less than 41 nor over 44 ounces.
<i>Popper O. Brannan</i> Autograph Model	This is a different shaped Bat than either of above, somewhat shorter, medium thick handle and rounded end. Bats supplied will not weigh less than 41 nor over 43 ounces.
<i>Geo. F. Stone</i> Autograph Model	This Bat is of good bulk, with a medium thick handle. Bats supplied will not weigh less than 40 nor over 42 ounces.
<i>Willie J. Huggins</i> Autograph Model	A short Bat with a small handle, but good bulk in balance of Bat. Bats supplied will not weigh less than 39 nor over 41 ounces.
<i>Wm. H. Keeler</i> Autograph Model	This model and the Chance Bat touch the two extremes in models and weights used by the great majority of prominent professional players. The Keeler Model is short and has fairly thin handle. Bats supplied will not weigh less than 36 nor over 39 ounces.

No. PA. Plain oil finish. **Price, \$1.00 Each.**

CORRESPONDENCE If you wish any particular model bat, and will describe the bat you require, the length, weight and full description of same, and address any of our branch stores, the matter will be taken up, with the hope of furnishing our customers with the exact model and style and weight of bat that they require. This will come under our Special Players' Autograph Bat Department. This entire department is looked after by the manager of our Professional League Base Ball Department, who is familiar with most of the types of models used by the leading players and to whom will be referred any unusual model. *As these bats are made to order only, at least two weeks' time may be required.*

Durand-Steel Lockers

WOODEN LOCKERS are objectionable because they attract vermin, absorb odors, can be easily broken into, and are dangerous on account of fire. Lockers made from wire mesh or expanded metal afford little security, as they can be easily entered with wire cutters. Clothes placed in them become covered with dust and the lockers themselves present a poor appearance, resembling animal cages.

Durand-Steel Lockers are made of high-grade steel plates, and are finished with gloss-black Furnace baked Japan (400°), comparable to that used on hospital ware, which will never flake off nor require refinishing, as do paints and enamels.

Durand-Steel Lockers are usually built with doors perforated full length in panel design, with sides and backs solid.

This prevents clothes in one locker from

coming in contact with wet garments in adjoining lockers, while plenty of ventilation is secured by having the door perforated its entire length, but if the purchaser prefers we perforate the backs also.

The cost of Durand-Steel Lockers is no more than that of first-class wooden lockers, and they last as long as the building, are sanitary, secure, and in addition, are fire-proof.

We are handling lockers as a special contract business, and shipment will in every case be made direct from the factory in Chicago. If you will let us know the number of lockers, size, and arrangement, we shall be glad to take up through correspondence the matter of prices.

Spalding Catalogues of Athletic Goods

We are issuing new catalogues continually throughout the entire year—catalogues containing all information, cuts, description and prices of the full equipment for the particular athletic sport covered by each catalogue. We charge nothing for these catalogues, and we mail them free

on request to any address. The first issues, however, are always sent to those that we have on our records here, and as there are generally many new things contained in these catalogues which are particularly interesting to athletes, every athlete and everyone interested in athletic goods should be on this record of ours. It is only necessary to send your name and address and state just what athletic sports you are interested in, and copies of our catalogues will be mailed to you as they are issued.

Who are A. G. Spalding & Bros.?

ALBERT G. and J. WALTER SPALDING commenced business March 1st, 1876, at Chicago, under the firm name of A. G. Spalding & Bro., with a small capital. Two years later their brother-in-law, William T. Brown, came into the business, and the firm name was then changed to A. G. Spalding & Bros.

The business was founded on the Athletic reputation of Mr. A. G. Spalding, who acquired a national prominence in the realm of Sport, as Captain and Pitcher of the Forest City's of Rockford, Ill. (1865-70), the original Boston Base Ball Club (Champions of the United States, 1871-75), and the Chicago Ball Club (1876-77), first Champions of the National League. He was also one of the original organizers, and for many years a director, of the National League of America, the premier Base Ball organization of the world. Mr. Spalding has taken an important part in Base Ball affairs ever since it became the National Game of the United States at the close of the Civil War in 1865. The returning veterans of that War, who had played the game as a camp diversion, disseminated this new American field sport throughout the country, and thus gave it its national character.

Base Ball Goods were the only articles of merchandise carried the first year. Gradually implements and accessories of Athletic Sports were added, until the firm now manufacture the requisites for all kinds of Athletic Sports. Originally the firm contracted for their supplies from outside manufacturers, but finding it impossible, by this method, to keep the standard of quality up to their high ideals, they gradually commenced the manufacture of their own goods, and by the acquisition from time to time of various established factories located in different parts of the country, are now able

to, and do manufacture in their own factories everything bearing the Spalding Trade-Mark, which stands the world over as a guarantee of the highest quality.

There are over three thousand persons employed in various capacities in A. G. Spalding & Bros.' factories and stores located in all the leading cities of the United States, Canada and England. A capital of over \$4,000,000 is employed in carrying on this business, and the annual sales exceed the total combined annual sales of all other manufacturers in the world making a similar line of goods.

A. G. Spalding & Bros. have always taken a leading part in the introduction, encouragement and support of all new Sports and Games, and the prominence attained by Athletic Sports in the United States is in a very great measure due to the energy, enterprise and liberality of this progressive concern. They were the pioneers, and in fact the founders, of the Athletic Goods Trade in America, and are now universally recognized as the undisputed Leaders in the Athletic Goods line throughout the world.

The late Marshall Field of Chicago, America's greatest Merchant, speaking of the business of A. G. Spalding & Bros., said: "I am familiar with its early career, growth and development, and when I compare its unpromising outlook and the special field for its operations that existed at its inception in 1876, with its present magnitude, I consider it one of the most remarkable mercantile successes of the world."

The millions of Athletes using them, and the thousands of dealers selling them, attest to the High Quality of Spalding's Athletic Goods, and they must determine the future history of this concern.

A. G. Spalding & Bros.
are the leading manufacturers
of Athletic Goods in the world.
